Good Work of George Manson.

How Money Could be Saved by Keeping Him and Getting Others Like Him.

An effort has been made in the Board of Health to relieve George Manson of his position as Waikiki Health Agent and vest the duties among the paid inspectors who charge a great deal more for their work without doing it any better if so well. Mr. Manson has held the position of Agent of the Board for about a year and a half. He served the first three months without pay and his services were so satisfactory to the Board that on the suggestion of Atlorney General W. O. Smith he was given a salary of \$25 per month, which he has since been receiving. Here are a few of the things accomplished through Mr. Manson's efforts in the Waikiki dis

All illicit wash houses have been suppressed along the Waikiki road and the owners forced to do their washing at the Iwilei wash house, resulting in an increased revenue to the Government besides the suppression of a rapidly in-

There were over 500 hogs maintained in about forty different hog pens in the district between the King street junction and the Walkiki bridge when Mr. Manson was appointed. Through his efforts the Board of Health finally passed an ordinance forbidding the keeping of hogs in the Waikiki district, and today there is not a single hog pen in the

Through his individual efforts, and acting on complaints made to him by residents in the locality, the low marsh lands on the old Waikiki road have been put in a semi-sanitary condition from effluvia along that road. On his representations and after a personal visit to the locality the Board of Health condemned a tract of about sixteen to the Bishop Estate as insanitary and ordered the property filled in to the level of the road. If it had not been for the plague this land would have the intention of the Board to follow this condemnation by others in the locality.

Many stagnant ponds in Waikiki kept clean through Mr. Manson's efforts, and in some instances threats to proceed against the owners in the

and tide water have been constantly looked after by Mr. Manson personally and in many instances he has caused

When he was engaged by the Board was with the special understanding odd times; the Chinese and Japanese never know when he is coming and knowing that he is liable to drop in on them at any time they keep their places clean all the time, instead of cleaning up semi-occasionally.

Today and all through the plague experience Walkiki district is and has been the healthiest part of town. There have been no plague cases and very little sickness of any kind. Compared with the conditions which obtained before Mr. Manson's appointment the district of Waikiki is a paradise today. While it is true much remains to be done in the district in sanitary work, it is also true that the work has been mapped out in advance by Mr. Manson and the necessary steps will be taken as soon as the plague epidemic is over to make the whole district sanitary.

With regard to sanitary inspection or house to house visitation as now carried on, this is not part of Mr. Manson's duties and never was. Still it may be mentioned incidentally that he mmediately on the outbreak of the plague and kept it up daily for three weeks until the Citizens' Sanitary Committee took the matter in hand. It was largely through this early inspection that all residents of the plague district who were released after the first

This showing made by Mr. Manson eads no the suggestion that if other public-spirited men in Honolulu would take charge of forty districts at \$25 or \$30 per month and keep them as clean as Waikiki it would be the best solution of our sanitary inspection prob-Forty men at \$25 per month means \$1000 per month or \$12,000 per rear. The present system of inspection as indifferently carried on is cost-ing about \$125 per day, \$3750 per month or \$45,000 per year.

THE EXECUTIVE COUNCIL.

Minor Matters Which Came Before Yesterday's Meeting.

At a meeting of the Executive Council yesterday Minister Mott-Smith read a communication from Consul General Wilder, under date of April 7. He stated that the receipts of the San Francisco Consulate for February had been remitted. Mr. Mott-Smith also read a letter from the Hawaiian Planters' Association dated April 14 about the cancellation of bonds for importing European or other white labor.

It was voted to authorize the Minister of Finance to transfer \$50,000 from the current cash to the loan fund cash, as provided for under Section 1, Act 63, of the Session Laws of 1898. The application of the Hawaiian

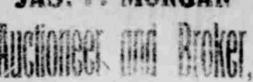

Electric Light Co. for an amendment to

its charter was granted.

The residence of Jno. S. Ellis on Sumner's Island, was broken into yesterday and a lot of jewelry belonging to Mrs. Ellis stolen. The robbery was reported at the Police Station yesterday evening.
